

Amsterdam Public Health
research institute

‘Health for all, powered by science’

An introduction to the Amsterdam Public Health research institute (APH)

Amsterdam Public Health

Amsterdam Public Health (APH) is a research institute that connects researchers from multiple disciplines to contribute to the health and care for all people, respecting social, ethnic and cultural diversity along the life course

Amsterdam UMC research institutes

Development

The research institute...

- is an excellent learning community **connecting over 1,700 researchers** from multidisciplinary backgrounds
- unites researchers from Amsterdam UMC (location AMC and location Vumc) with researchers from VU Faculty of Science and VU Faculty of Behavioural and Movement Sciences
- has strong ties with **strategic and societal partners** in research and practice

“We want to be a learning community, a network institute and good collaborations partner”

APH Board of Directors

- Prof. Martine de Bruijne, Director (VUmc)
- Dr Dionne Kringos-Pereira Martins, Vice Director (AMC)
- Dr Frank van Leth, Vice Director (VU)

APH research programs

Aging and Later Life Research Program

Our mission

Aging & Later Life is a multidisciplinary, cross-departmental research program. We focus on aging (growing old), the older person (being old), and the last years of life. Core concepts that we apply are: Resilience, Quality of Life and Personalized care.

APH Program Leaders & council

Aging & Later Life

Prof. Martijn Huisman Dr Janet MacNeil Vroomen

Fadime Kursun & Joost Wammes

aph.aginglaterlife@amsterdamumc.nl

Program council members	
Bianca Beersma	Roeline Pasman
Nathalie van der Velde	Susan de Rooij
Cees Hertogh	Julia van Weert

APH Junior Council

- Consist of 3-6 early career researchers
- (Co-)organizing theme sessions of APH and research program meetings
- Set-up workshops and events for early and mid-career researchers

Always looking for new, enthusiastic members!

APH A&LL initiatives

Urban aging

Work together with the city Amsterdam to develop an agenda for the next 5 years with innovation, research, technology and good education with respect to the aging population.

Grey power meetings

Debate evenings with and for older people, with invited speakers presenting on the latest scientific knowledge on various themes.

Panel of older adults

To actively involve older people in our research.

APH networking events

- Spring Meeting
- Annual Meeting
- Junior Meeting: APH Junified

Themes: Sustainability, implementation science, urban health, personalized medicine

Locations: Johan Cruyff Arena, Theater De Rode Hoed & De Meervaart, Rosarium

APH Annual Meeting November 1, 2022

- Yearly event for APH researchers and external partners
- Plenary and parallel program sessions and networking elements

Date: November 1, 2022 | 09:30-18:00

Venue: Theater de Meervaart, Amsterdam

Funding & travel grants

- The research institute provides **strategic grants** for postdoc researchers and PhD candidates
- **Innovation grants**, distributed by the research programs, support APH researchers with the translation and successful implementation of scientific findings
- Moreover, the research programs provide **travel and writing grants**
